# WELCOME TO

*Thank you for your interest in POS Nation!*

POS Nation is proud to provide retail stores, grocery and market stores, restaurants, salons, and many other businesses with point of sale systems that are high quality, low cost, easy to use, and customizable.

Our commitment doesn't stop once you've made your purchase. Our United States-based help desk is always ready to assist you, offering 24/7 support. We are dedicated to helping business owners get up and running as soon as possible. Our experts will work one-on-one with you and your employees to train you on all the features of your new POS system.

Interested in learning more about how we can help your business? Give us a call at (877) 727-3548 or email us at [sales@posnation.com](mailto:sales@posnation.com).

# RETAIL POS

*We provide solutions for all retailers—from independent owner-operators to multi-location chains and everything in between.*

POS Nation specializes in retail POS systems. Over 70,000 retail businesses have already implemented our retail POS software. We work with a variety of industries, including tobacco shops, liquor stores, specialty grocery stores, clothing stores, and more!

## **Inventory Control**

Always know what's in stock and when to order more.

## **Sales Reports**

Better understand and monitor your business's sales trends and financial status.

## **Employee Tracking**

Track employee hours and productivity to make better staffing decisions.

## **Custom Barcode Printing**

Easily track inventory by creating your own sticky labels, jewelry tags, shelf tags, clothing tags, cigar labels, and more with just the click of a button.

## **Auto Generate and Receive Purchase Orders**

Create, track, and send purchase orders. When you reach the re-order point, our retail POS software will auto generate a purchasing order.

## **A/R Tracking**

Keep track of outstanding receivables by setting customized accounts receivable terms and limits.

## **Customer Sales History**

Track purchasing trends and create targeted marketing campaigns to bring in new business.

## **Handheld Inventory Device for Inventory Counts**

Scan stock to improve inventory data and efficiency.

# GROCERY & MARKET POS

*Gain the insight you need to better manage your grocery or market.*

Running a grocery store presents a unique set of challenges; you need a POS system to meet those demands. Inventory management is especially important, so that you can provide the freshest products possible and reduce the number of items that go to waste. Our market and grocery POS systems will help you manage the complexities of running your business.

## **Inventory Control**

Know what's in stock and when to order more by tracking products from dry goods to produce.

## **Accept Coupons**

Attract and maintain customers with exciting offers and discounts with manufacturer coupons or your own.

## **Customer Loyalty Programs**

Integrate customer loyalty programs to reward customers for frequent visits and purchases.

## **Mix and Match Pricing**

Increase sales and move inventory by enticing customers to purchase group products for discounts and deals.

## **Scale Integration**

Choose from integrated scanner-scales, standalone scales, and deli-scales to easily ring up weighed items.

## **Sales Reports**

Track sales trends to better understand which products are moving and which aren't. Easily view sales by department to focus on areas that need improvement.

## **EBT and Debit Capable**

Expand your customer base by accepting EBT, credit and debit cards, Apple Pay and Google Wallet.

## **Hot Keys with Pictures**

Quickly navigate through hot keys to look up products instead of memorizing PLUs.

# RESTAURANT POS

*Table and quick service restaurants have unique needs, so we offer customizable POS systems.*

We offer POS systems unique to your industry. Whether you own a pizzeria, a café, a sushi restaurant, a quick service restaurant, a fast casual restaurant, or a bar—we have the solution for you. Our software is trusted by over 80,000 restaurants, so we're confident we have the features that will meet your needs.

## **Order by Table**

Easily access and reference each table's information to eliminate order errors.

## **Sales Reports**

View your restaurant's real-time sales activity to better understand your business.

## **Kitchen Communication**

Simplify your restaurant from the order to the kitchen with printer or kitchen display systems.

## **Tip Tracking**

Monitor how much each staff member earned, so you'll never have to debate it again.

## **Menu Programming with Modifiers**

Quickly enter custom and special orders and send them to the kitchen for error-free communication.

## **Recipe/Inventory Tracking**

Access recipes for consistency and manage your inventory so you never run out of ingredients.

## **Menu Populated with Pictures**

Decrease errors with graphical keys for popular menu items so orders are placed quickly and accurately.

## **Reservation/Host Functions**

Simplify your booking process for shorter wait times and more customer engagement.

# SALON POS

*Your business will run smoothly with our salon POS systems so you can focus on what really matters—your clients!*

Your salon business requires organizing appointments, sending reminders, tracking customers, and ringing up sales. Now you can do it all with one easy system from POS Nation. Our easy-to-learn, versatile, and powerful POS systems will meet all your salon or spa's needs.

## **Appointment Booking and Email Reminders**

Book multiple appointments and schedule repeat appointments for every day, week, or month. Send auto-reminders via email or text to prevent no-shows.

## **Client Database with Pictures**

Store images of client styles to replicate during their next visit.

## **Employee Scheduling**

Track employee tips, commission, hours worked, and schedule staff.

## **Email Marketing**

Send automated marketing emails to customers using our built-in templates.

## **Online Booking**

Empower your customers to book their own appointments online by integrating your POS system with your website.

## **Point of Sale**

Offer quick checkouts, credit and gift card processing, coupons, and more.

## **Reporting and Inventory Tracking**

Take advantage of sales reports, inventory reports, and client metrics to track business results.

## **Mobile Apps**

Use your Apple or Android device to remotely access information from your POS system.

# SOFTWARE

## Cash Register Express

Over 70,000 merchants already trust Cash Register Express as their retail point of sale software. The variety of features gives you full control of your retail establishment.

- Avoid long lines and customer frustration with fast checkouts
- Look up items in seconds, searching by category, department, or vendor
- Receive and return inventory with integrated purchase orders
- Encourage repeat business with the built-in loyalty program
- Make smart business decisions with accurate reports, including dynamic inventory tracking
- Personalize cashier and login screen appearance to include your logo and color scheme

## Restaurant Pro Express

This software was designed to meet the needs of quick service restaurants and cafés. The simple-to-use functions make it easy to take and process orders quickly. You can even integrate customer loyalty programs.

- Customize the menu screen with hot keys for popular items
- Easily modify orders using conversational ordering
- Track sales by the hour, day, month, and year
- Offer custom loyalty and reward programs
- Manage your entire payroll, including employee time, attendance, and tips
- Program daily specials to only show up on the POS screen on certain hours or days

## Aldelo

This restaurant software is ideal for table service establishments. Simple to setup, easy to use, and affordable, Aldelo software offers a variety of features that make running your restaurant a snap.

- Manage all hosting and reservation needs
- Quickly create bar tabs and customize table layouts
- Maintain customer information, including addresses, order history, discounts, and credits
- Track employee hours, set pay rates, and run payroll reports
- Maintain detailed recipe information to manage inventory
- Integrate with website for online ordering

## Salon Iris

Take the hassle out of managing your salon. Salon Iris is user-friendly and includes powerful features to help you manage your salon more effectively.

- Book appointments and send clients email reminders to reduce no-shows
- Store images of customers in a client database to replicate styles for returning customers
- Manage your business on the go with remote access to reports, inventory, and schedules
- Allow customers to book appointments online by integrating your website and POS system
- Send your customers automated marketing emails about upcoming specials
- Create your own customer loyalty programs, coupons, and gift cards

# WHY BUY FROM US

*We provide turnkey POS solutions to suit every business need. Start to finish, we'll be there every step of the way.*

We're a one-step solution for all your POS needs—encompassing everything from hardware to software to service. Choosing the right POS solution for your business is essential, so we offer a wide range of products. Whether you're an independent single store or a multi-location chain, we have the solution you need. Our software is custom tailored to the functions of your business, so you'll be able to be more efficient and profitable. Once your POS system is installed, we'll be there to help with any questions or issues you may have.

## **Fully Configured POS Systems**

All your hardware is pre-configured and shipped in a single box. All you have to do is plug it in and start ringing up transactions.

## **Personalized POS Software**

Our POS software is customized specifically to your industry and can come pre-loaded with your inventory. It's a no stress setup!

## **Integrated Payment Processing**

You'll no longer need that external terminal for transaction processing. Simply swipe your customer's card on your POS system with our integrated POS Nation Merchant Services.

## **Backed by 24/7 Support**

Whatever you need, just make one call. We'll help with setup, training, payments, warranty, and more. Because our expert staff handles all aspects of your system, we understand how the components work together, so you can trust you'll get the help you need.

FREE w/ System Purchase	Starting at \$39.99/Month
 Standard Care	 Monthly Support
Break-Fix Support Online Training Videos Two-Year Hardware Warranty Monday-Friday, 8AM-8PM EST	Standard Care Plus: 24/7 Support Unlimited 1-on-1 Training Inventory Import Virus Removal System Restore

## *It's about more than just hardware and software.*

POS Nation offers a variety of support types to meet your individual needs. Standard Care comes with every system purchase. It includes break-fix support, online training videos, and a two-year hardware warranty, so you'll feel confident operating your POS system.

Even though our POS software is user friendly, sometimes getting an extra helping hand is vital, which is why we offer a Monthly Support package. The Monthly Support package includes all of the Standard Care features plus 24/7 support, unlimited one-on-one training, inventory import, virus removal, and system restore. Our hardware and software combined with our high quality support offers you the complete POS package.

*Our suite of turnkey services will provide the peace of mind you need.*

***Want to gain a deeper understanding of the features your system offers?***

We offer a variety of venues for expert training. With live training, you'll schedule an hour session of uninterrupted time with our support staff, so you can get your specific questions answered by a POS Nation expert.

***Have a quick question on the go? Need to train employees on your POS system?***

Included in your POS system purchase, you can instantly access our archive of training videos that explain everything from troubleshooting to adding quick keys and implementing new menu items.

## **Inventory Import**

Because our software is designed for you, we've integrated several essential business features. You can easily import your inventory from your old POS system to your new POS Nation system. All you have to do is provide us with an Excel file of your inventory. Then we'll import the name, description, UPC code, cost, price, and department. When your system arrives, you'll be ready to get started.

## **Custom Menu Creation**

Our software allows you to create custom menus that are both attractive and intuitive. These menus are designed to help your business move quickly and easily. You can add modifiers to build your customer's exact order with speed and accuracy.

## **Accounting Integration**

POS Nation software also enables you to integrate your accounting information. You can send all of your sales transactions and inventory directly to QuickBooks.

## **Secure Payment Processing**

POS Nation Merchant Services can help set up and install your payment processing services. We provide free, unlimited gift card transactions, fast and secure credit and debit processing, free 24/7 live support, and other features.

# MERCHANT SERVICES

*Our in-house processing will make accepting credit cards fast, easy, and affordable.*

At POS Nation, we want to make implementing your POS system as easy as possible, so we offer resources for selecting the optimal payment processing partner. Our turnkey POS solutions now include POS Nation Merchant Services, which provide in-house payment processing, making transactions quick, easy, and secure.

## **Integrated Credit Card Processing**

Integrating your credit card processing with your POS system enables you to accept multiple payment options, including credit, debit, gift cards, and loyalty cards.

## **Cost Savings**

Because we offer an integrated payment processing solution, we often save our customers money compared to when they use third-party processors.

## **Security**

Security is critical when dealing with payment processing. Our partners offer top notch security to reduce the risk of data breaches. Our POS systems are all PCI compliant and fully equipped with the latest security measures, so you can rest easy.
