

# Payments as a Platform® Features and Services

**OMNI>FUND**®

Payments as a Platform®

## Process Payments

OmniFund offers flexible payment processing solutions that scale with your business as you grow, maximizing your profitability while keeping your data safe and compliant with Payment Card Industry (PCI) and other data security standards. With Payments as a Platform®, you can process payments easily and securely, wherever you do business.

### ➤ Online

Whether you specialize in one-time sales or recurring monthly subscriptions, OmniFund gives you the ability to reach a broader audience and accept more payments through your eCommerce channels.

### ➤ In-Person

Payments made in-person at brick-and-mortar locations are processed quickly and securely. Our Payments as a Platform® solution enables you to accept the most popular payment methods while keeping your business safe from fraud.

### ➤ On the Go

Take our payment platform with you and process transactions on the go with OmniFund's mobile app. Rather than sending your customers invoices, offer them flexible payment options and process payments on the spot.

## OmniFund Extras

### ➤ Account Updater

If your business collects recurring payments or utilizes account-on-file programs, Account Updater keeps the authorization process running smoothly by automatically checking for the most up-to-date payment account details.

### ➤ OmniFund Passport

OmniFund safeguards you against fees and penalties associated with PCI non-compliance. Our platform acts as the data custodian lowering the risk of fraudulent activity by handling and storing customer data—keeping you out of scope.

### ➤ Processing Support

Receive lower interchange rates without changing the way you currently process transactions. OmniFund has a built-in feature that automatically submits the qualifying data fields required for level-2 and level-3 business and purchasing card transactions.

## Rate Analysis

### ➤ Free Rate Review

Credit card fees can be tricky. OmniFund offers a free, independent third-party analysis of your current rates. Find out how much you are really paying and how much you could save with OmniFund. We know each customer is unique; therefore, so is our pricing model.

Let us give you a no-cost, no-commitment price comparison.

# Integrate Payments

OmniFund's platform includes a valuable set of tools, controls, and integrations that equip you with the ability to create the payment process that works best for your business. We also have a dedicated team of informed technical experts to assist you in integrating payment processing with your existing software.

## Developer Tools

Customize your solution and expand its capabilities to include the features you need. OmniFund's developer tools help you to integrate our platform seamlessly with your other critical business solutions such as accounting software and eCommerce shopping carts.

## APIs

Our platform is equipped with an open application programming interface (API) that allows your solution to scale with your business so you can add functionality easily without bogging down your IT resources.

## Plugins

Add more channels of revenue and give customers more options for how they do business with you. OmniFund works with trusted eCommerce platforms so you can choose the best plugin for your business.

# OmniFund Advantage

## Security

Keeping your data secure is our passion. OmniFund focuses on helping make compliance easy by securely transmitting and storing customer and transaction data. Our platform safeguards your business by leveraging our industry-leading proactive fraud technology.

## Support

We back our payment platform with extensive service and support provided by technical experts dedicated to your success. We ensure you have the tools and assistance you need to make processing payments simple and effective.

## About OmniFund

Since 1997, the professionals at OmniFund have been providing payment solutions to businesses nationwide. From large Fortune 500 companies to small mom & pop shops, we help optimize their payment solutions—keeping them secure and increasing profits. We pride ourselves on providing a platform that simplifies the payment process and makes it easy to stay compliant with ever-changing regulations. We back our platform with expert service and personalized support. Our goal is to equip you with the right payment processing solution so that your business can grow and thrive.
