

Thermal Printer Manufacturers for Industrial, Retail, and Medical Applications

Since 1993, **GoDEX** has manufactured industry-leading, high-performance barcode printers loaded with features and priced for affordability. Our focus on responsive, comprehensive support, dedication to long-term customer satisfaction, and engineering inspiration drives the cutting-edge printer innovations designed to support your success. **What sets us apart:**

Quality Engineering

Designed for Ease-of-Use

Value-Based Pricing

Customer Focused

Our Products

All desktop and industrial printers come standard with USB, serial, and Ethernet ports, they are designed to understand and communicate EZPL, GZPL, GEPL, and GDPL right out of the box, and software with database integration are completely free for all GoDEX users. Desktop and industrial printers come in a variety of DPI options ranging from 203 DPI to 600 DPI, and our accessories, ribbons, print mechanisms, and software ensure we are always able to meet our customers' diverse printing needs.

Desktop Printers

Reliable barcode label printer for a variety of applications in retail, government, healthcare, and T&L.

Industrial Printers

Robust, reliable heavy-duty printers for high-volume output in rugged environments.

Mobile Printers

Portable and lightweight for printing on-the-go, perfect for printing in the field.

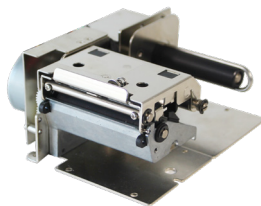

Specimen Labeling

Automated desktop print and apply printer for labeled, barcoded specimen tubes.

Accessories

Label stand and rewinder supporting three sizes, cutters, and peelers.

Print Mechanisms

Full range of modular options to build the perfect solution for your application.

Ribbons

Choose from wax, wax/resin, and resin ribbons for any printing environment.

Software

Proprietary software to support labeling project needs for all applications.

Who We Serve

Industrial/Manufacturing/T&L

High volume printing applications, ruggedized steel casing to withstand harsh environments.

- Work in progress (WIP)
- Asset management
- Track and trace

Retail

Durable, fade-resistant labels for superior organization and customer experiences.

- Inventory management
- Shipping
- Price tags

Medical

Fade-resistant, HIPAA-compliant label printing. Reliable performance, engineered for accuracy.

- Patient ID
- Specimen labeling
- Asset tracking

Government

Mobile printers offer field-printing, desktop printers offer durable performance for small spaces.

- Library book tracking
- Quality/safety inspections
- School inventory

Travel & Leisure

High-speed, portable, high-volume printers for events, transportation, and event information.

- Tickets/wristbands/printouts
- 2D codes for event info
- ID badges

Special Materials

Quality printing on materials of varying thickness, elasticity, toughness, and compound coatings.

- Cable labeling
- Fabrics
- Plastics

Affordable Excellence, Quality Engineering, Outstanding Service

Our long-lasting, feature-packed thermal printers are affordable, dependable, flexible, and engineered for industrial, retail, medical, and other applications. Schedule a demo with GoDEX to experience the difference our dedication to long-term satisfaction can make for your business!
