

Ambit TECHNOLOGIES

A POS System Atlanta Restaurants Rely On

Less Friction. More Revenue.

Why a Local Partner Matters

Atlanta restaurants run at full speed, with constant volume shifts and no margin for delays. When something goes wrong, waiting on remote support isn't an option. Our same-day, on-site support and hands-on setup fit your menu and service model, so orders move cleanly from entry to kitchen to payment without extra steps. We are a proactive, full-solution provider keeping POS, payments, and hardware working together without added complexity.

No ticket queues. No vendor runaround. Just systems that perform.

Low-to No-Cost Equipment

No upfront costs.
More cash on hand.

Support Beyond Installation

Local, same-day service.
Assigned Relationship Manager.

Dedicated Hands-On Setup

White-glove implementation.
End to end.

Fewer Fixes. Faster Service. Better Control.

1. Consistent Orders Across FOH & BOH

Tickets stay accurate between front and back of house, reducing miscommunication and limiting on-the-fly orders during service.

2. Faster Service During Peak Volume

Orders process quickly, so staff can turn tables faster, close checks without delays, and prevent tickets from stacking up during rush hour.

3. Controlled Menu & Pricing Updates

Updates apply quickly to menus and pricing, so changes are clear, consistent, and applied across your system without errors.

4. Orders Across Channels Stay in Sync

Dine-in, curbside, and online orders stay connected so your team isn't juggling separate systems, fixing orders, or correcting tickets.

What a Restaurant POS Should Handle

- Orders and transactions process quickly, even during high-volume periods.
- Every item, modifier, and total is correct across dine-in, curbside, and online.
- Menu and pricing changes apply immediately without added steps or complications.
- Reporting is clear, accessible, and keeps sales, inventory, and labor up to date.
- The system supports higher volume, multiple locations, and changing service demands.
- Dine-in, curbside, and online orders stay consistent without switching between tools.

Serving Atlanta & Surrounding Areas

We work with restaurants across Georgia, including the major markets listed below.

- Atlanta
- Athens
- Augusta
- Savannah
- Macon
- Columbus

Why Atlanta Restaurants Choose Ambit

We're a local team with hands-on restaurant experience, working alongside operators as a true partner. Restaurants work with us because we understand the business and how daily service runs. From POS integrations to in-house customization, we give you the tools to run your operation without workarounds. Our solutions like tableside order and pay, mobile POS, reservations and waitlists, and customer marketing give you more ways to capture revenue. With our support team available 24/7/365, you won't deal with handoffs or delays, so issues are handled quickly and don't carry into the next shift.
